

FOR RESEARCH AND INTERACTIONS* - REDUCERS

```
let myArray = [ 5, 7, 9, 11 ];
```

```
myArray.reduce(function(accumulator, element) {  
    return accumulator + element;  
});
```

Array.reduce is an example of a reducer

> 32

Using reducers, you can create your own sum, average, max, min functions.

THANKS!

Feeling loopy now?
